

CALL FOR PAPERS & PARTICIPANTS

10th EIBA Early Career Network (EIBA-ECN) Paper Development Workshop (PDW)

Pre-conference event at EIBA 2024 at Aalto University December 12

Dear Colleagues,

The **EIBA Early Career Network (EIBA-ECN)** was launched at the EIBA 2014 conference in Uppsala with the goal to establish a forum for cooperation among EIBA's early-career researchers. EIBA-ECN scholars are brought together to share ideas, build up networks with like-minded individuals, and discuss research projects with a view to the possibilities of cooperation and collaboration.

So far, the annual EIBA Early Career Network Paper Development Workshop (EIBA-ECN-PDW) was attended by over 70 early-career researchers. The works developed and discussed during the EIBA-ECN-PDW evolved into publications at journals such as *Academy of Management Discoveries*, *International Business Review*, and *Organization Science*, among others. Further information on attendee's experience can be found in the [EIBAzine](#).

This year's **10th EIBA Early Career Network Paper Development Workshop** will take place on the **12th of December** in the **afternoon** at Aalto University in Finland!

This year, the program will consist of two exciting parts: A **Workshop on Developing Impactful Theory by Joep Cornelissen (RSM)**, followed by **ECN Paper Presentations and Round Table Discussions**.

If you are interested in presenting your paper and receiving relevant feedback –or helping others to develop their projects– please submit your working paper or an extended abstract. Full paper submissions should not exceed 10,000 words, and extended abstracts 1500 words. Submissions can follow any common and consistent formatting style, and do not need to be anonymized.

Please use the [Submission Form \[Link\]](#)

The deadline for submissions is the **31st of October 2024**

The **EIBA-ECN-PDW** is targeted towards **early-career researchers** who have already obtained their PhDs (e.g., assistant professors, lecturers, and post-doctoral researchers). In exceptional cases, we will also consider submissions of advanced PhD students (e.g., third or final year) for inclusion in the program. If you would like to participate in the EIBA-ECN Workshop without making a presentation, please also register [\[here\]](#) by the **22nd of November 2024**.

NOTE: Participation in the **EIBA 2024 ECN-PDW** is free-of-charge for accepted applicants; however, all participants (including non-presenters) must be duly and fully registered for the EIBA Annual Conference.

We are looking forward to meeting you in December!

Johannes Kleinhempel (Copenhagen Business School, ijkl.si@cbs.dk)

Božidar Vlačić (Católica Porto Business School, bvlacic@ucp.pt)
